

Janice came to our rescue when I started working full time away from home leaving Russell to work full time plus overtime and look after the house and our two dogs.

We feel lucky to have found her. Our shift patterns vary and she has been very flexible. Our dogs love it when she arrives to take them out. They get a good walk whatever the weather which makes their and our lives so much better. She cleans their paws, uses words that we have taught them to understand and respects our wishes on how they should be treated.

Janice is friendly and offers a professional service, we would be happy to speak to anyone considering her for their dog walking needs.
